I find no reason at this time why the above named dog cannot receive Clinical Canine Massage Therapy.

Signature of Veterinarian **Print Name** **Date**

- I Lisa Stilwell, am a member of the Canine Massage Guild and I have trained for 2 Years on the Clinical Canine Massage Practitioner Programme externally accredited by LANTRA* via the Canine Massage Therapy Centre.
- My professional membership, training and credentials may be checked by visiting the online professional therapist register www.k9-massageguild.co.uk/therapistregister
- More information about me can be found on my own website essexriversccm.co.uk or I welcome your phone call on 07950428587.
- I am the Clinical Trials Co-ordinator for the Canine Massage Guild. The results for the world's first clinical trials with the University of Winchester were published on the 13th of June 2021. The research paper that I had the privilege of co-authoring can be found at <https://bvajournals.onlinelibrary.wiley.com/doi/10.1002/vetr.586>
- Each year I commit to a minimum of 25 hours CPD as part of the Canine Massage Guild's strong code of ethics and conduct.
- I hold my own professional indemnity and public liability insurance which is audited annually by the Canine Massage Guild.
- I always abide by the Veterinary Surgeons Act 1966 and Exemptions Order 2015, by never working on an animal without veterinary consent. As stated by the RCVS, "Physiotherapy' is interpreted as including all kinds of manipulative therapy" (Section 19.21), thus including massage therapy. Manipulation under massage therapy is limited to soft tissue and testing a joint's range of motion. I do not manipulate joints like a chiropractor.
- I specialise in the use of Myofascial Release, Remedial Sports Massage, Deep Tissue Massage and Swedish Massage as well as the Lenton Method™ of Myofascial Release. More details may be found on the Canine Massage Guild website.
- I ensure continuity of client care by providing a written report back to the surgery upon completion of a client's initial sessions.
- I comply with GDPR Compliance 2018 and the Data Protection Act 1998.
- Clinical Canine Massage Therapy is suitable for soft tissue injury rehabilitation and for the chronic pain management of orthopaedic conditions as well as pre and post-operative care. It is commonly used amongst sporting, performance and agility competitors too. If you would like an Integrated Veterinary Care Initiative educational pack on Clinical Canine Massage for your surgery please contact me and I will be more than happy to send one for your perusal.
- I am also available for Lunch 'n' Learns or client presentation evenings to speak on Clinical Canine Massage Therapy.

*formerly Therapeutic Canine Massage Diploma accredited by Ascentis

I Lisa Stilwell acknowledge and respect the Veterinary Surgeons Act 1966 and Exemption Order 2015 by never working upon an animal without gaining prior veterinary consent. As stated by the RCVS, "physiotherapy" is interpreted as including all kinds of manipulative therapy (Section 19.21)
